option for the 10<sup>th</sup> Edition

Deaconess Hospital  
Health Sciences Building • Johnson Hall  
600 Edgar Street • Evansville, Indiana

Sponsored by the American College of Surgeons Committee on Trauma  
and Deaconess Regional Trauma Center

## COURSE DESCRIPTION

The Deaconess offering of the American College of Surgeons (ACS) Committee on Trauma (COT) course remains true to its core mission—to provide health care professionals with access to education that will enhance their ability to accurately provide an initial assessment, resuscitate, stabilize, and determine next steps in the care of the injured patient.

The content and skills taught in the course are designed to be adaptable to all health care settings for the care of patients and are intended for the immediate management of the injured patient. The knowledge gained through the course allows participants to rapidly and accurately assess the patient; stabilize and resuscitate by priority; determine the needs of the patient and whether those needs exceed the resources of the treatment facility; arrange for appropriate definitive care; and ensure that optimal care is provided.

The skills are grouped in ABCD:

- Airway
- Breathing
- Circulation
- Disability
- Adjuncts
- Restriction of the Cervical Spine Movement
- Trauma Team
- Secondary Survey

In short, ATLS is a measurable, reproducible, comprehensive system of trauma care.

## COURSE PREPARATION

On-line pre-test must be taken prior to the start of the course. A link to the pre-test will be sent by the ACS so a valid e-mail address must be submitted with course registration.

Additionally, it is incumbent upon the student to prepare prior to attending the course. In addition to a Student Manual, students will have access to mLearning, an electronic platform for ATLS information.

## COURSE CHANGES

The ATLS 10<sup>th</sup> Edition is one of the most transformational editions in ATLS history. Some of these changes include the following:

- The traditional lectures have been replaced with interactive discussions, fostering increased student engagement
- The Skills Stations are now taught through unfolding case scenarios that allow the students to apply the skills learned in the course to real life situations
- The incorporation of mATLS offers students the opportunity to complete interactive modules online prior to attending their in-person skills day

## CERTIFICATION

Documentation of successful course completion will be issued to course participants by the American College of Surgeons. This certification is valid for four years.

## CONTINUING MEDICAL EDUCATION

As an organization accredited for continuing medical education by the Accreditation Council Continuing Medical Education, the American College of Surgeons designated this continuing medical activity as meeting the criteria for the following credit hours in Category 1:

16 *AMA PRA Category 1 Credit*™ hours and 16 Self-Assessment Hours (must receive a 75% or greater on the post-test to claim self-assessment hours)

## CANCELLATION POLICY

Registrants who cancel more than 30 days prior to the course may receive a refund minus a \$100 processing/material fee. Registrants who cancel 15-30 days prior to the course may receive no refund but can apply the cost toward a future course. Registrants who cancel fewer than 15 days prior to the course may forfeit the entire registration fee.
