

## To use your phone as the microphone with Fluency Direct

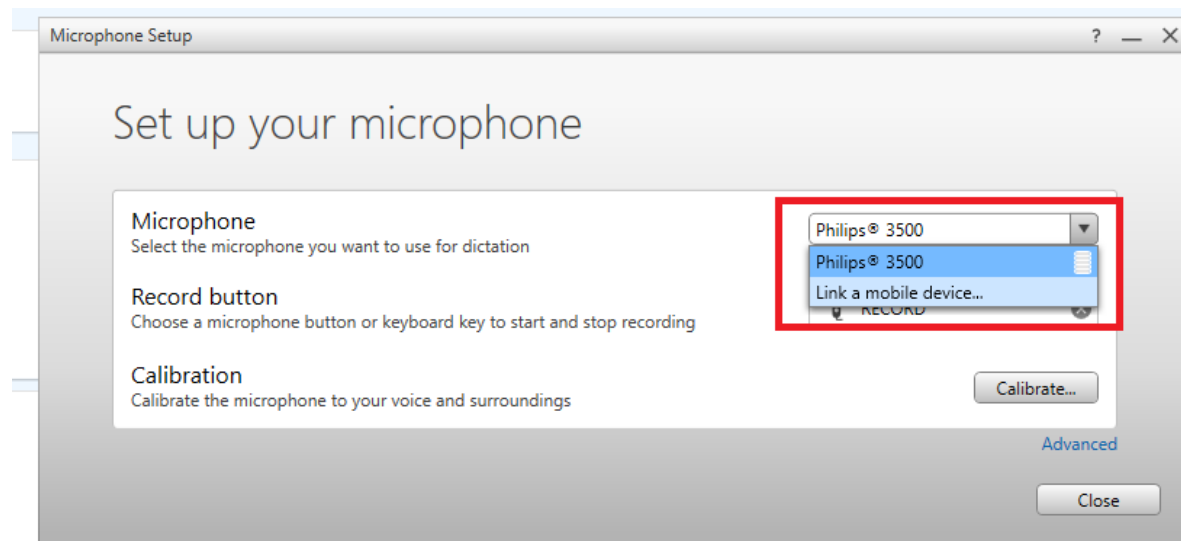

Go to the App store on your phone and download 3M Mobile Micorphone

Click on the gray bar that has your name. A drop down menu will appear. Click on Microphone Setup.

Then click on the drop down arrow next to microphone and choose Link an iPhone

You will be give a 6 digit number to enter into your phone app. Each time you log into Epic at home and want to use Fluency Direct you will need to Link to your phone and you will get a new number.
