

Accessing Your FastPass Desktop Externally - Windows

1. Open web browser on your external desktop, laptop, or tablet and navigate to the following address: <https://fastpass.deaconess.com>

Open the web browser on your desktop or laptop and navigate to the following address:
<https://fastpass.deaconess.com>

2. Click “Install VMware Horizon Client”

[Install VMware Horizon Client](#)

3. Select Omnissa Horizon Clients > View Download Components

The screenshot shows the Omnissa Customer Connect portal. The navigation bar includes links for Home, Downloads, Products and Accounts, Support, Knowledge, Learning, and Cloud Services. The main content area is titled 'All Downloads' and features a search bar and a 'By Category' filter. Under the 'Desktop & End-User Computing' category, a list of products is displayed. The 'Omnissa Horizon Clients' link is highlighted with a red box, and a red arrow points to the right, indicating the next step in the process.

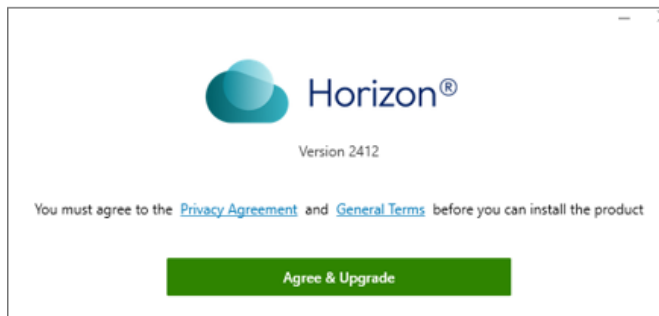

4. Select “Go to Downloads” under *Omnissa Horizon Client for Windows*

Product	Release Date	
Omnissa Horizon Client for Windows		
Omnissa Horizon Client for Windows	2024-12-23	GO TO DOWNLOADS

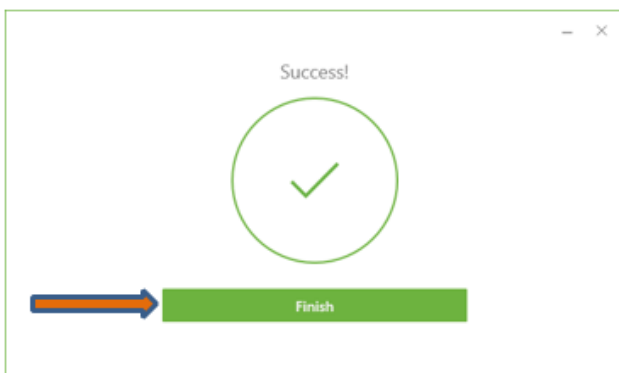

5. Click the blue “Download Now” button

6. Click “Agree & Upgrade”

7. Then once the install finishes, click **Finish** and reboot your computer.

8. An icon will be placed on your desktop. Double click it to open the Omnisca Horizon Client app.

9. Click “Add Server” plus sign.

10. In the window that appears, type the following address:
<https://fastpass.deaconess.com> then click “Connect”

11. Enter your ID and password (you might need additional set up for Imprivata for multifactor authentication – see separate tipsheet)

12. Click on the icon computer icon to connect to your desktop
