Meet Our Family Medicine Residents

Andrew Collins, DO

Class of 2021

WHAT ARE YOUR CAREER GOALS?

To work in a rural community in both the inpatient and outpatient setting.

WHY CHOOSE DEACONESS?

I chose Deaconess for many reasons. One of the biggest reasons is because Deaconess is an unopposed residency in a large metropolitan city that will allow me to treat a large scope of diseases and perform a number of procedures. This was especially important to me to gain this type of training in order for me to practice in a rural community. I also loved the environment and staff during my interview. Everyone was very professional and friendly, and had the residents' education and their patients as their number one priority.

WHAT IS THE BEST PART OF LIVING IN EVANSVILLE?

Evansville is a large, growing community that is surrounded by many small, charming communities. It is close to many of the largest U.S. cities and makes travel to and from very easy.

Hometown:

Hazard, Kentucky

Undergraduate Training:

University of Kentucky

Medical School:

University of Pikeville Kentucky
College of Osteopathic Medicine

Hobbies:

I love outdoor sports such as fishing and kayaking. I also love to read and I am currently reading through U.S. Presidents' autobiographies. In my spare time I love to travel with my wife.
