Meet Our Family Medicine Residents

Mollie Laramore, MD

Class of 2021

WHAT ARE YOUR CAREER GOALS?

Currently I plan to practice in an underserved, rural community as a traditional family medicine physician. I would love to have a close-knit outpatient clinic full of procedures, while seeing my own patients in the inpatient setting as well.

WHY CHOOSE DEACONESS?

I talked to the SIUSOM alumni involved at Deaconess at an educational event while I was a third year medical student and I knew I had to check the place out. I felt I had “found my tribe” during my interview day, and honestly Deaconess checked all of my boxes for what I wanted in a residency. The program is unopposed, has a strong pediatric population, OB training, and a comprehensive curriculum preparing residents for real practice. The faculty and other residents have been so welcoming, helpful, and proud to talk about Deaconess, so I was eager to join their family!

WHAT IS THE BEST PART OF LIVING IN EVANSVILLE?

Evansville has a small-town feel, yet is large enough to have a lot to do. No matter where you go, everyone smiles at you and says hello as they pass. I love walking along the riverfront area and trying out the funky, one-of-a-kind restaurants throughout the city.

Hometown:

Chester, Illinois

Undergraduate Training:

Southeast Missouri State University

Medical School:

Southern Illinois University
School of Medicine

Hobbies:

Creating stained glass art, crafting, hiking, being outdoors and traveling (especially road trips to National Parks). Of course, I also enjoy spending time with my family, friends and cat, Louie.
