Meet Our Family Medicine Residents

William Thompson III, DO

Class of 2021

WHAT ARE YOUR CAREER GOALS?

To provide high quality, comprehensive care to patients in southwestern Indiana.

WHY CHOOSE DEACONESS?

I believe that the Deaconess Family Medicine Residency program will fit closely to provide the education and learning skills I desire. This residency program will help me manage the varied health care needs of my patients, and foster relationships with physicians in other specialties that will provide the best care for the patients I serve. I have been away from southern Indiana for the last four years and I look forward to returning here for my residency.

WHAT IS THE BEST PART OF LIVING IN EVANSVILLE?

Being from Knox County, Evansville has always been that next closest big city. It provides a large city training atmosphere, but is still small enough to be part of the rural tri-state area. I consider Evansville an extension of my rural home.

Hometown:

Monroe City, Indiana

Undergraduate Training:

Indiana University

Medical School:

West Virginia School of
Osteopathic Medicine

Hobbies:

Outdoor recreation, hunting,
fishing, gadgetry and
IU basketball.
