Meet Our Family Medicine Residents

Nicholas Volz, DO

Class of 2021

WHAT ARE YOUR CAREER GOALS?

My goals are to practice high-quality, compassionate health care in collaboration with my patients. I am interested in practicing outpatient and inpatient medicine as well as providing care in an ED or urgent care setting.

WHY CHOOSE DEACONESS?

I chose Deaconess for many reasons, chief among them: it's home! I loved the opportunity to come back and practice medicine in my hometown and to work with the amazing faculty at the residency. Deaconess is a large health system with an extensive referral base allowing opportunities to see and treat a large variety of pathology. The culture at Deaconess was welcoming and supportive, and the camaraderie between the residents was evident from the moment I stepped on campus. Additionally, the Family Medicine residency is unopposed which was very important for me.

WHAT IS THE BEST PART OF LIVING IN EVANSVILLE?

There's so much to do in the third largest city in Indiana. From the development going on downtown to the revival of Haynie's Corner and Franklin Street, Evansville is constantly changing and becoming a more exciting place to live. This is all in addition to the great cost of living found here.

Hometown:

Evansville, Indiana

Undergraduate Training:

Indiana University - Purdue
University Indianapolis

Medical School:

University of Pikeville Kentucky
College of Osteopathic Medicine

Hobbies:

I am a big sports fan. I can watch just about any sport and I enjoy playing sports as well, especially tennis. I also enjoy playing video games, reading and spending time with my wife.
