RESIDENCY

Meet Our Family Medicine Residents

Humza Khan, MD **Class of 2028**

ABOUT ME

My name is Humza Khan, and though I was born in New Haven, Connecticut, I have lived in the greater Evansville area since the first grade. From Castle to Signature School to University of Evansville and beyond, Newburgh has been my home for nearly all of the past 24 years, and I cannot express how grateful I am to continue to live in and serve my hometown.

WHY CHOOSE DEACONESS?

Having grown up in a family-oriented community, I was drawn to Family Medicine because I love the idea that I can form a long-term bond with not just my patient, but my patient's loved ones as well. Another aspect of medicine that is important to me is physical health and preventative medicine, which has also led to my interest in Sports Medicine. Being able to improve upon these and to do it as a part of Deaconess Family Medicine is a dream come true in so many ways. I fell in love with the program and system during my third year rotations, and my positive experiences during those rotations solidified my desire to rank Deaconess as my number one choice.

HOBBIES/INTERESTS

Those that know me, know that I am very much into pop culture and more accurately, nostalgia. Yes, I was that kid that never let go of his lightsaber or his Pokemon no matter how old I got. I love going to the same restaurants I've gone to for decades (thank you, Yen Ching). I spend my weekends watching the same Star Wars movies I watched in theaters as a kid (please ask for my opinions when you have a couple hours to spare). I also love watching my Chicago Bulls fail to make any decent run in the NBA Playoffs year after year. Hopefully this has given you a nice look into who I am, I'm excited to meet and get to know you!
