Meet Our Family Medicine Residents

Grant Turley, DO

Class of 2022

WHAT ARE YOUR CAREER GOALS?

To provide high-quality primary care in the outpatient setting while helping to educate the next generation of physicians.

WHY CHOOSE DEACONESS?

I chose Deaconess because I felt it was the best residency program I interviewed at, hands down. Deaconess is an unopposed program at a large hospital, which allows residents to truly become well-rounded family physicians while also tailoring our residency experience to meet our unique goals. The faculty at Deaconess are all top-notch, each faculty member brings something unique to the table to contribute to our growth and development as physicians. Most importantly, the residents here are a tight-knit group and truly feel like a family.

WHAT IS THE BEST PART OF LIVING IN EVANSVILLE?

Evansville is a mid-sized city that offers all the amenities of a big city with none of the drawbacks. There's always plenty to do in town and improvements are constantly being made. I grew up in western Kentucky, so Evansville is close to home for me allowing me to stay connected to the community I grew up in. My favorite thing about Evansville is how I can live in an area that feels rural with a great cost of living while being a ten-minute drive from anything my family could ever need.

Hometown:

Central City, Kentucky

Undergraduate Training:

Western Kentucky University

Medical School:

Kentucky College of Osteopathic Medicine

Hobbies/Fun Fact:

My main hobby is strength training. I'm a former competitive strongman and I've also spent time training in Crossfit and powerlifting. I also enjoy playing guitar, doing projects around the house, and spending time with my wife and daughter.
