

Welcome to
Deaconess Family
Medicine Residency

Agenda

01 — DFMR Clinic

02 — Deaconess Midtown

03 — Deaconess Gateway

04 — Women's Hospital

05 — Evansville

Deaconess Family
Medicine Residency
Wallace M Adye Center

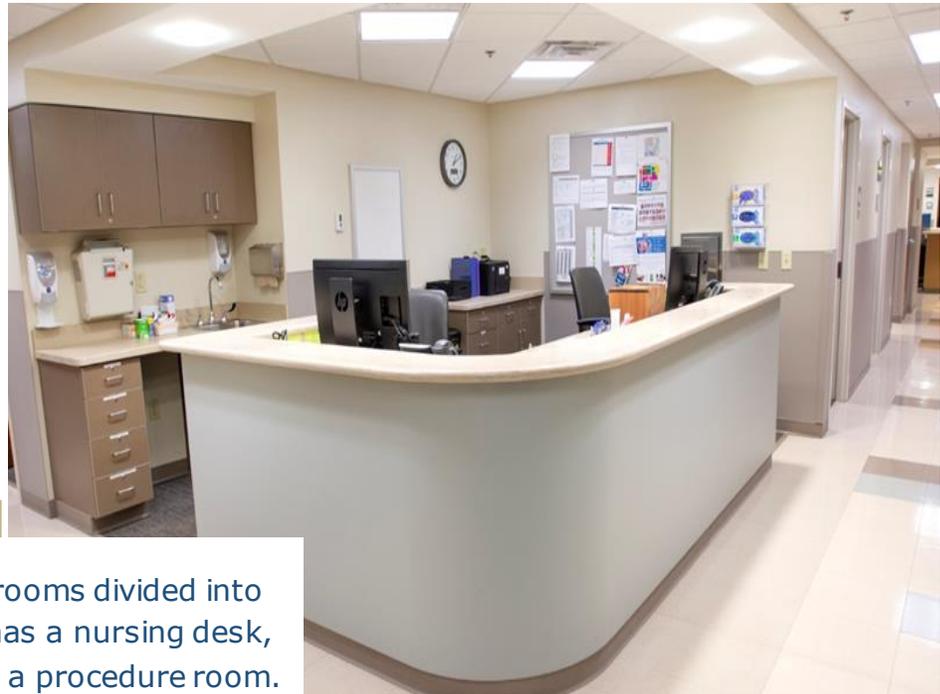

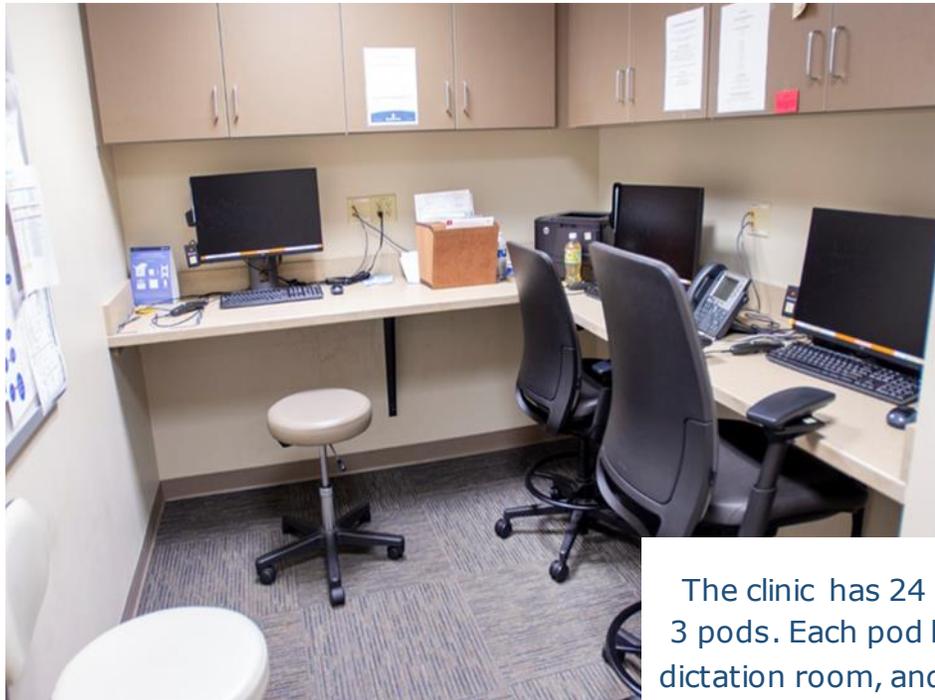

Welcome to DFMR

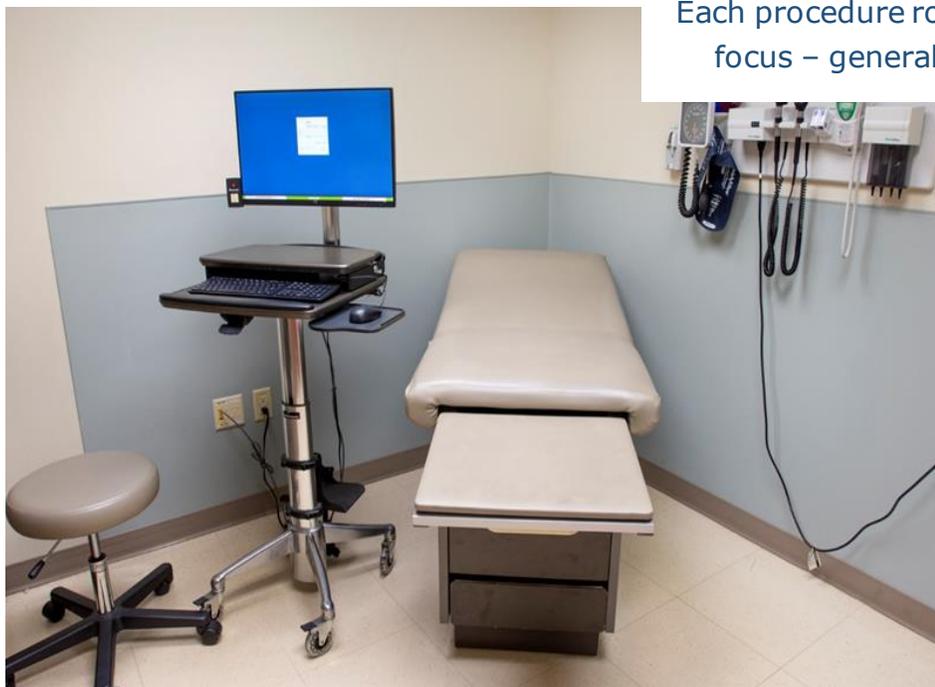

At the residency, you come to be like family to the patient, and they become family to us. When a patient walks up to check-in, I usually know who they are without asking. Also, a patient may call, and they know who we are by our voice. I have been here for 20+ years and every day is new!

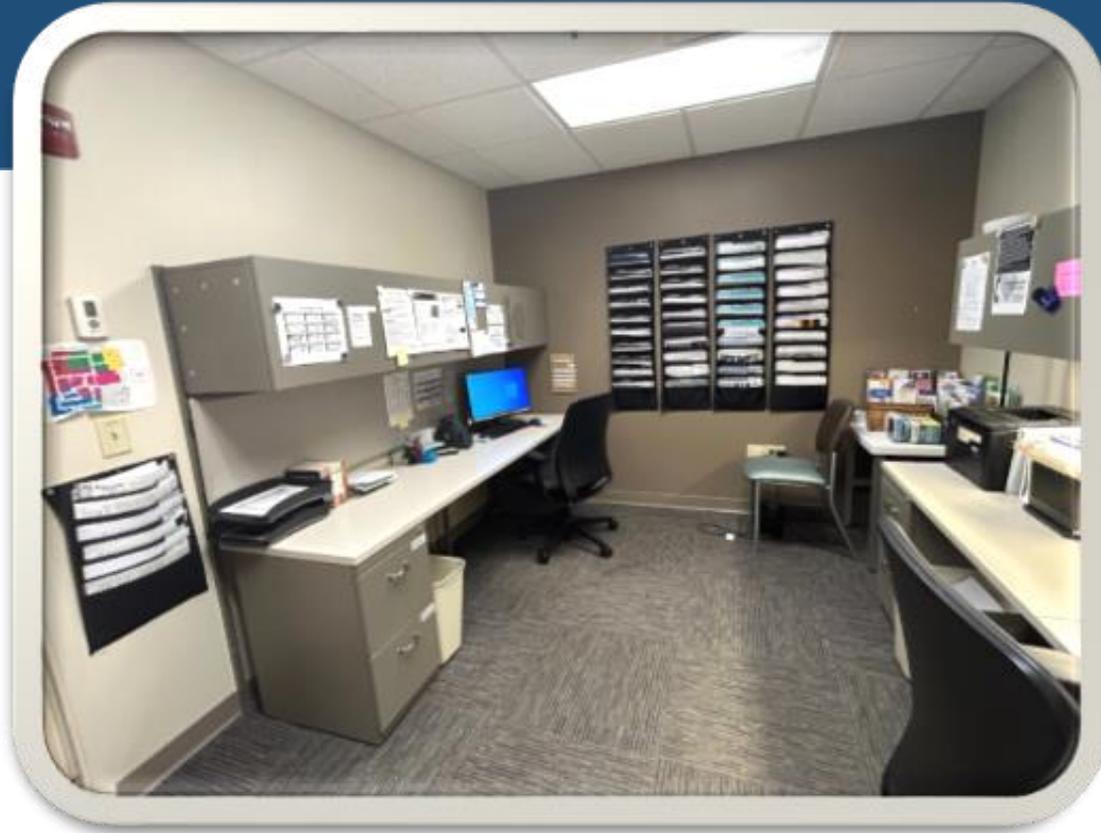

Shawnte Snyder
Medical Office
Staff Lead

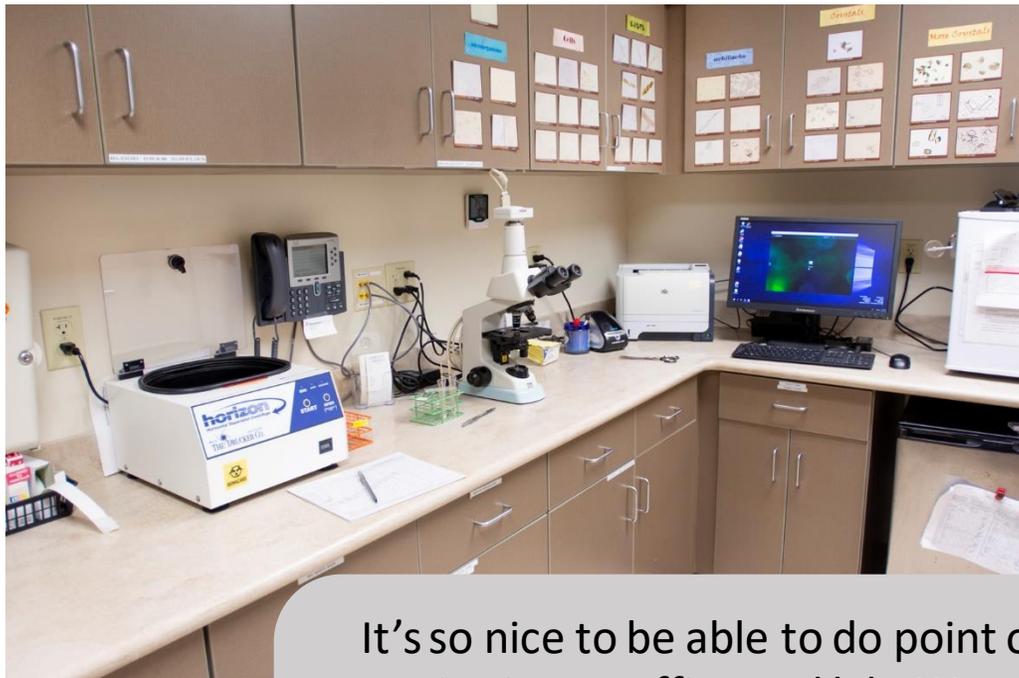

The clinic has 24 rooms divided into 3 pods. Each pod has a nursing desk, dictation room, and a procedure room. Each procedure room has a different focus – general, OMT, and gyn.

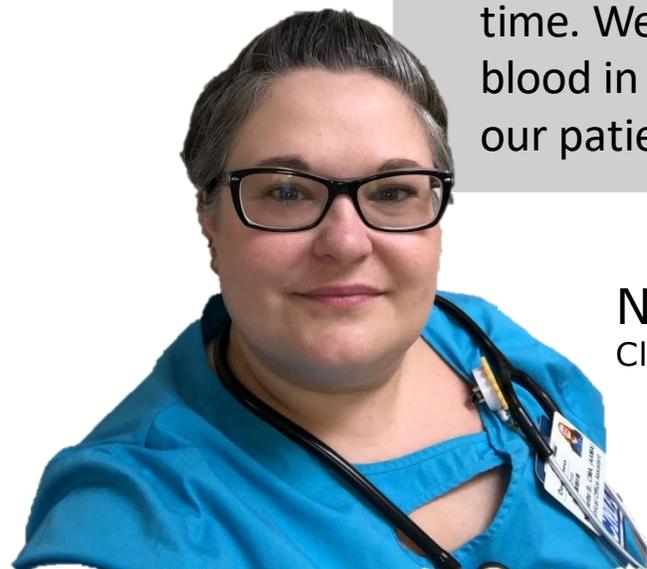

Integrated Behavioral Health (IBH)

It's so nice to be able to do point of care testing in our office and lab. We can get back immediate results on 12 tests at this time. We also have the ability the draw blood in the office, which is a big help to our patients.

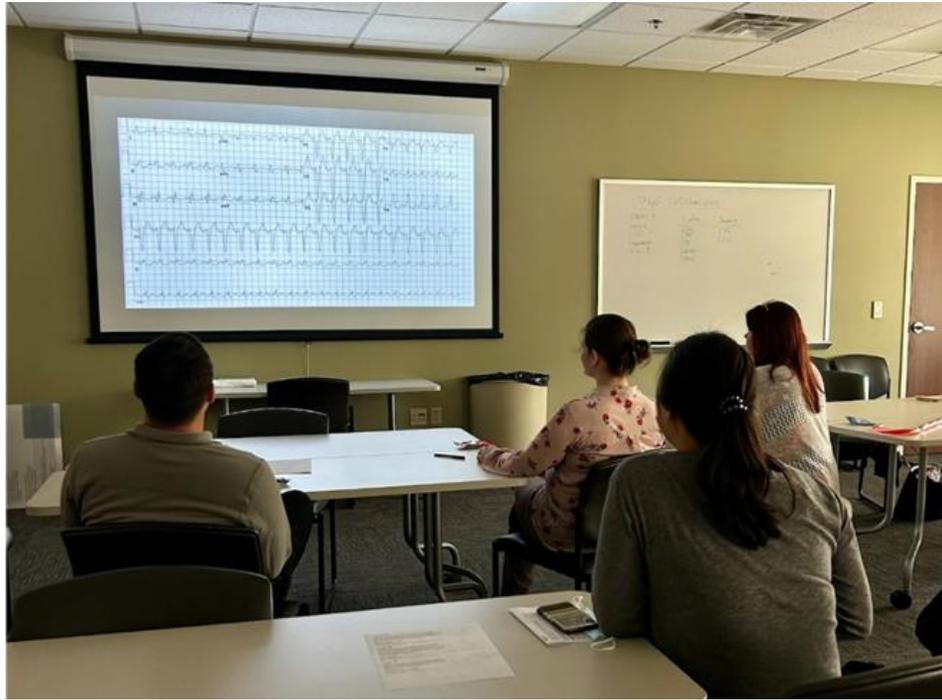

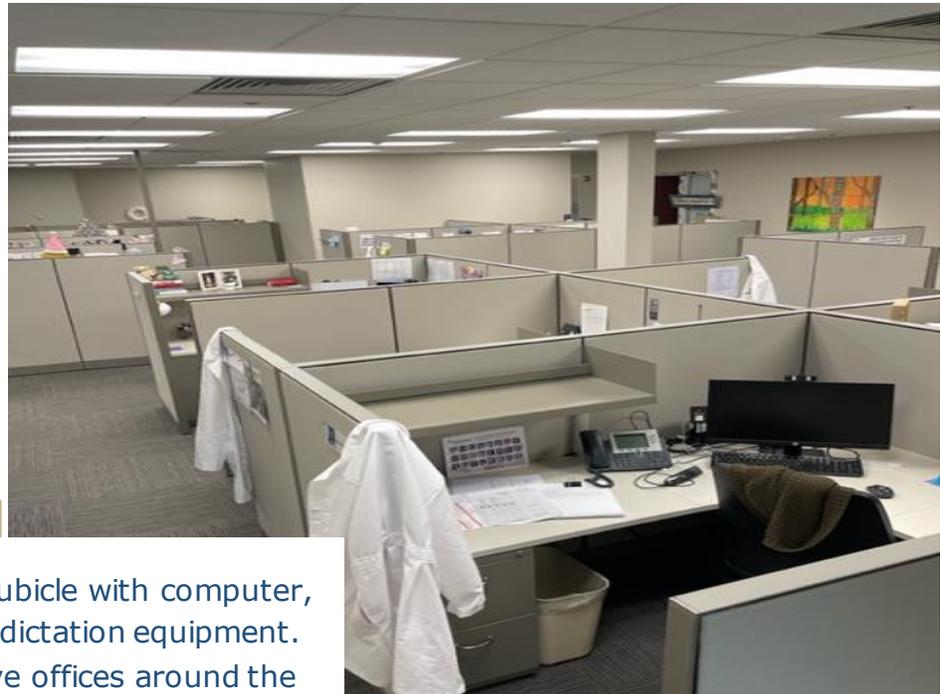

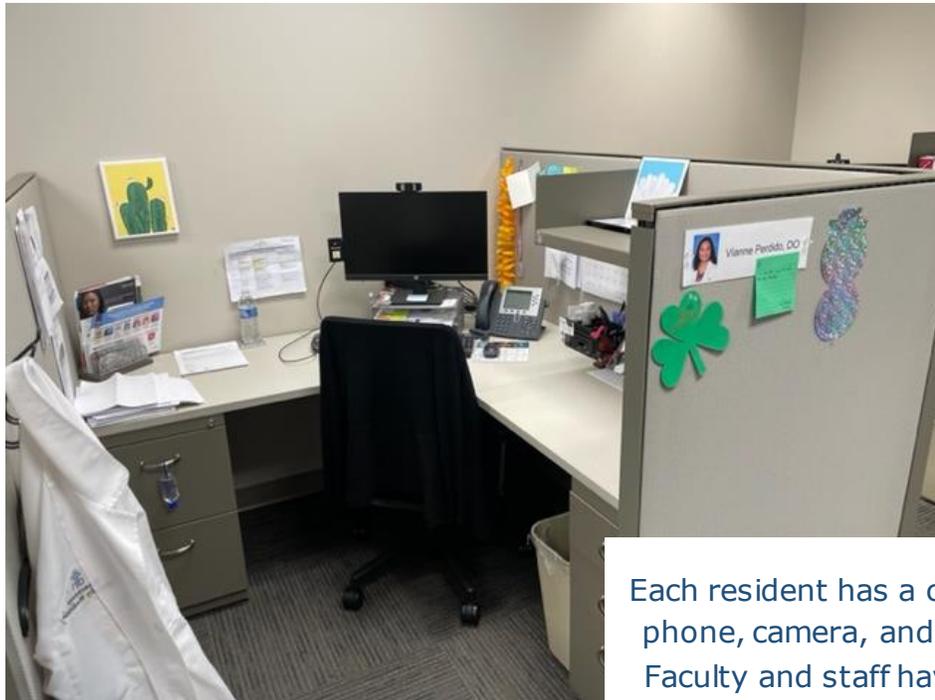

Nic Byrn, CMA
Clinical Staff Lead

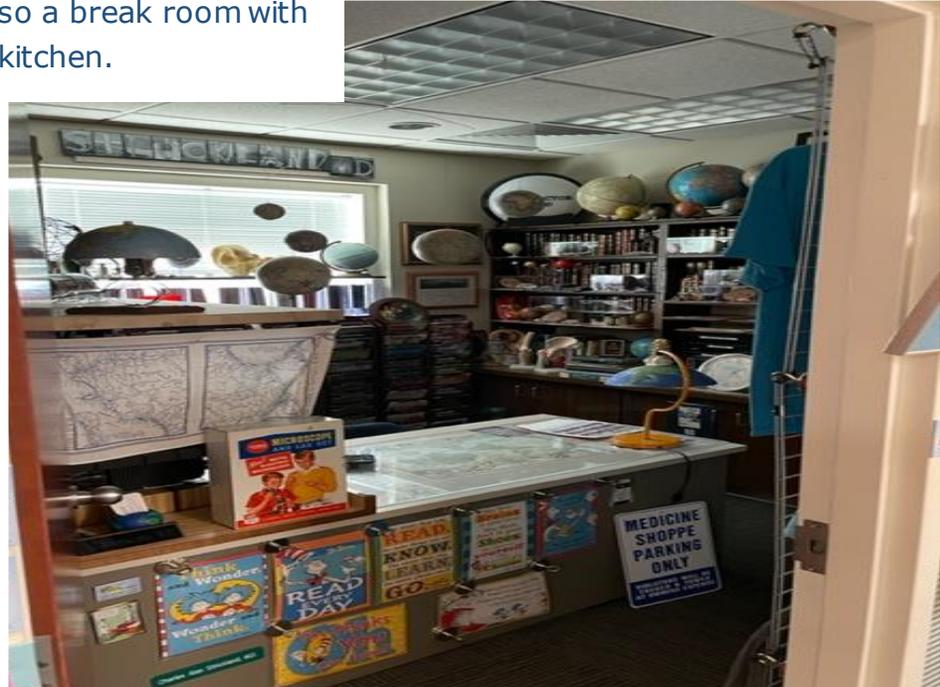

2 faculty staffing offices

Aruba Conference Room

Each resident has a cubicle with computer, phone, camera, and dictation equipment. Faculty and staff have offices around the perimeter. There is also a break room with a small kitchen.

NEONATAL INTENSIVE CARE UNIT

Evansville

IN

Greetings from

Evansville
Indiana

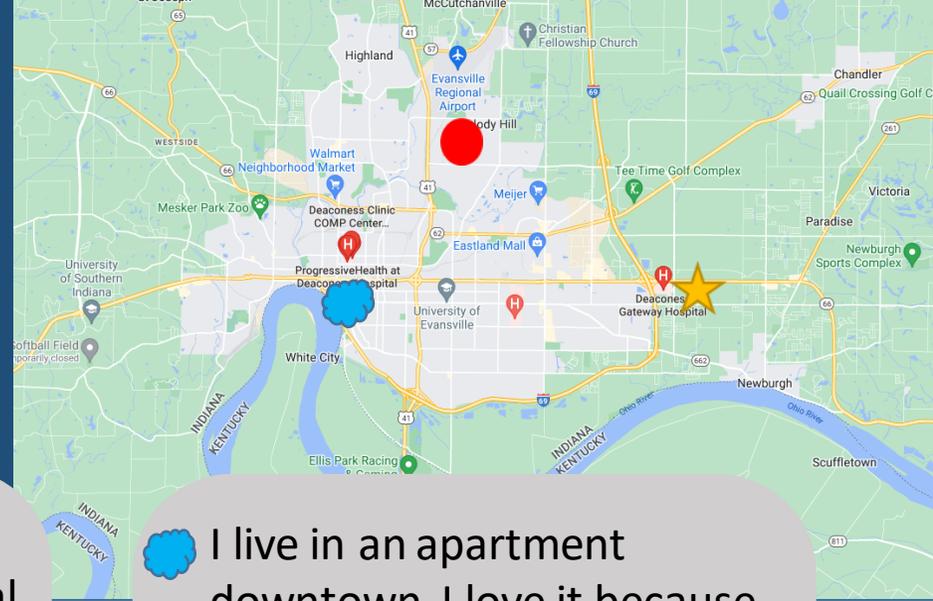

Why Evansville?

Evansville has many of the amenities that you expect to find in bigger cities, like world-class healthcare, institutions of higher learning, and an airport, without many of the bigger-city problems, like a high cost of living and horrendous traffic. I love that I can get almost anywhere in Evansville within 15 minutes!

Jennifer
Bouwkamp, PhD
Behavioral Health Director

Where do you live?

★ We live near Gateway and we love how close we are to shopping, food and Newburgh. It's not a bad drive to Midtown either.

Todd
Dunaway
PGY2

● We live in the Oak Hill Lynch Rd area, which has been ideal for residency with children, as it is a quiet neighborhood with large yards and located centrally between both hospitals.

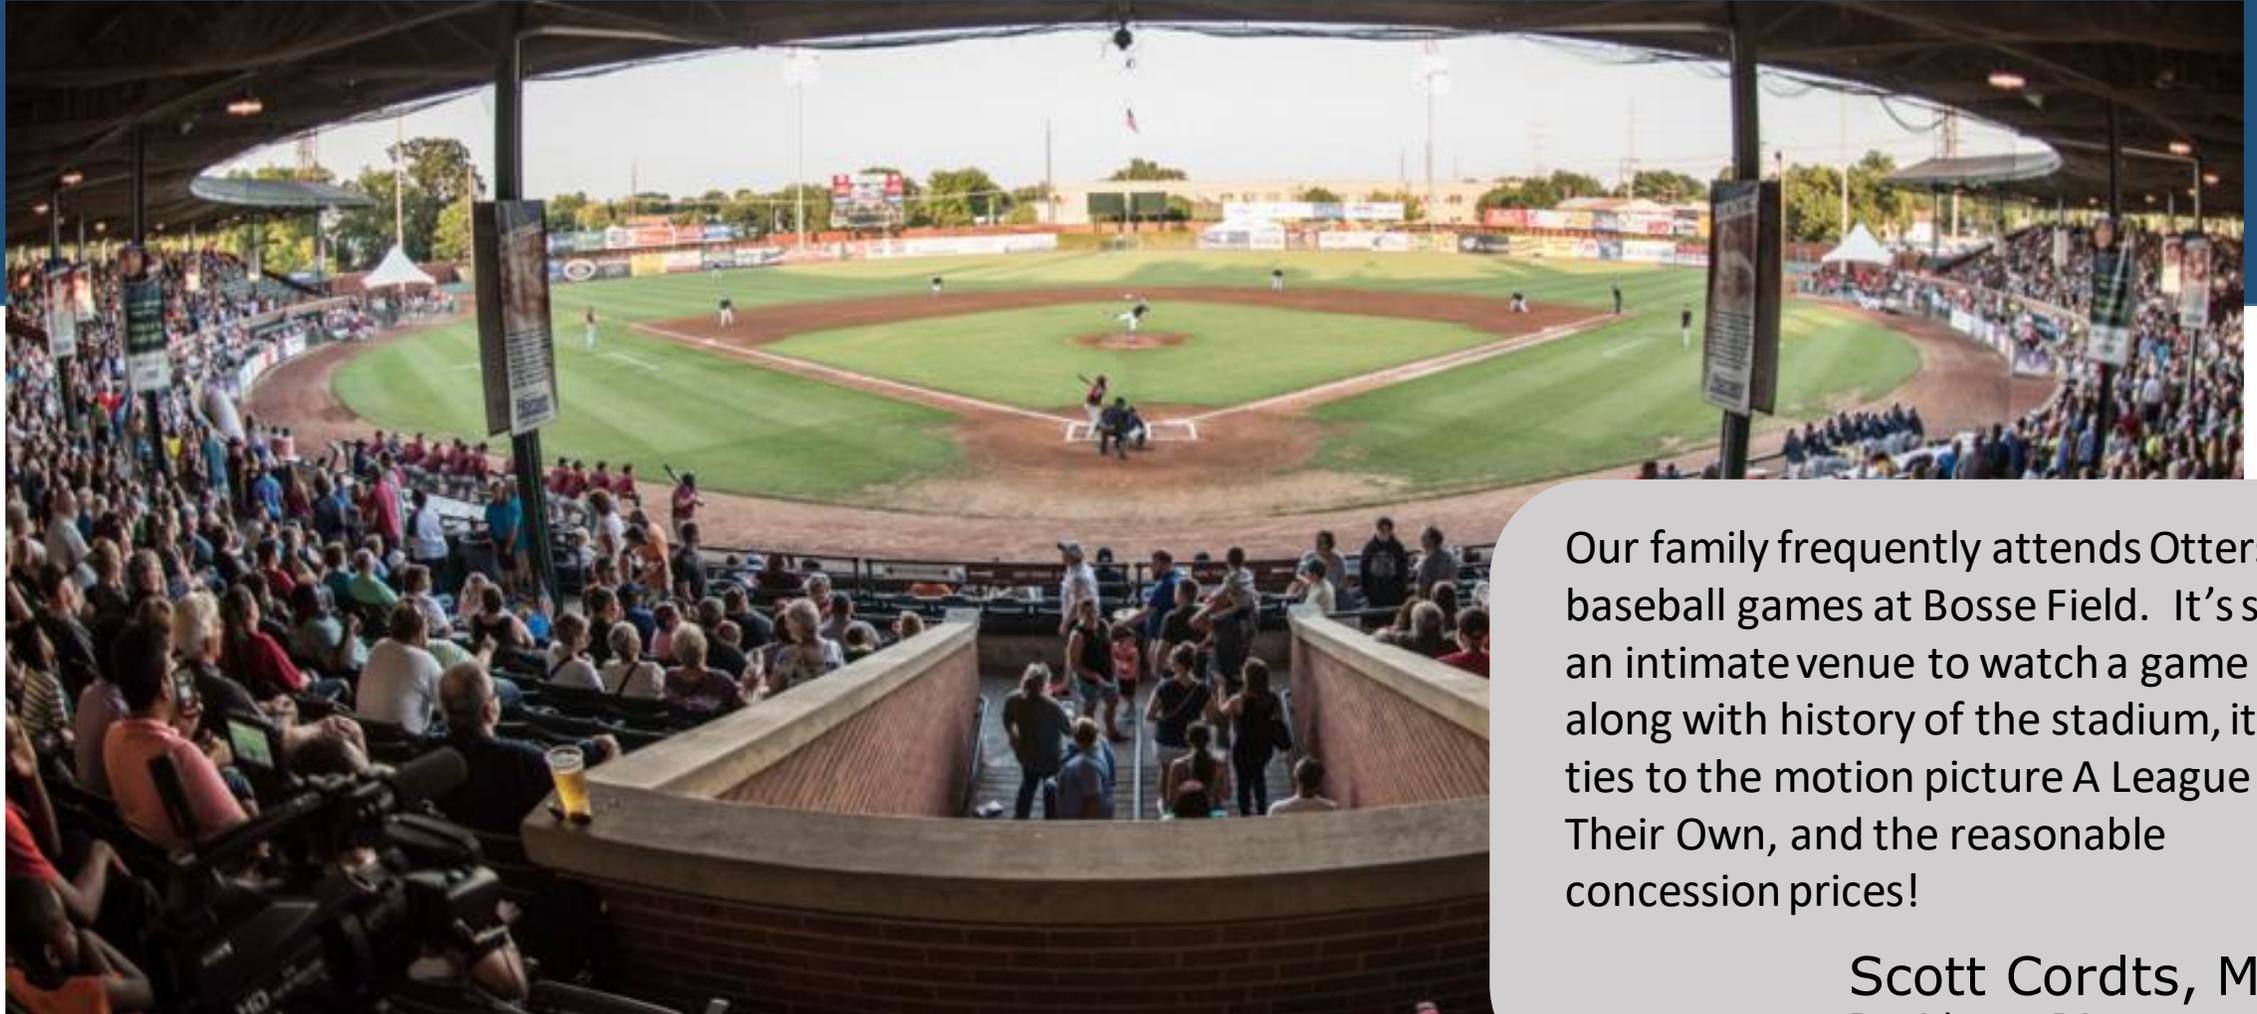

Sam
Anderson-
Been
PGY3

☁ I live in an apartment downtown. I love it because it's close to the riverwalk, local restaurants, and the residency clinic.

Hannah
Musarra
PGY2

Evansville Summers

Our family frequently attends Otters baseball games at Bosse Field. It's such an intimate venue to watch a game along with history of the stadium, its ties to the motion picture *A League of Their Own*, and the reasonable concession prices!

Scott Cordts, MD
Residency Director

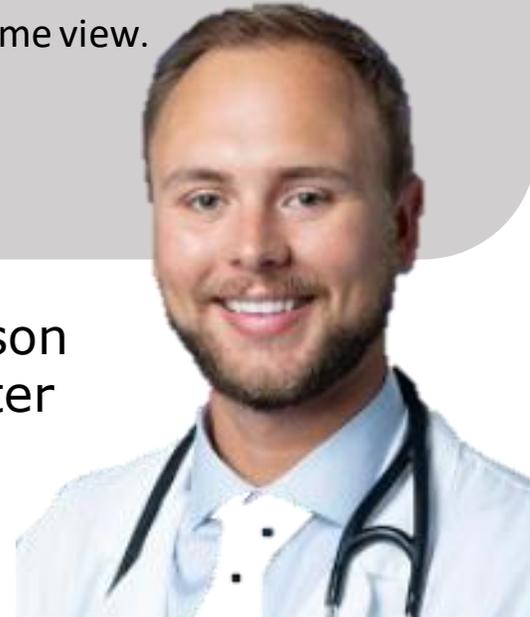

Enjoying Evansville Outdoors

Our family enjoys spending weekend afternoons at Mickey's Kingdom -- a 21,000 sq. ft. playground along Evansville's Riverfront!

Tyler
Ziliak
PGY3

My wife and I have been very pleasantly surprised by the variety. My favorite restaurant we have tried thus far has been Cafe Arazu. It is a super cool place in Newburgh on the riverfront with outdoor seating. We had a fantastic meal with an awesome view.

Plater
PGY2

One of my favorite day trips from Evansville is to Patoka Lake. It's just about an hour away and a great location to spend a weekend. You can find cabins to rent, visit the local winery, and enjoy a relaxing day on the lake.

Evansville This Fall

Considered one of the largest street festivals in the U.S., Evansville's Fall Festival has everything when it comes to food, games, and rides, but especially FOOD. If you like to try new things or have a favorite go-to food, the Fall Festival is the place to get it. Food made by all local businesses, churches, and organizations.

Sydney Franklin
Residency Coordinator
