

Patient Portal Instructions for Accessing IVF Cycle Reports

Your Fertilization and Egg/Embryo Cryopreservation Reports are now accessible through the online patient portal.

To find your IVF cycle reports:

1. Go to our website at <https://www.deaconess.com/The-Womens-Hospital/Services/Fertility-Care>
2. Click the "Patient" tab, then select the "Click here to visit our eIVF Patient Portal" button
3. Click the "Sign In" button and log in to access your personalized patient portal home screen
4. Click the "Documents" tab
5. Select the "Retrieval Reports" button, and then click on the title of the document you wish to view.

All reports will be made available through your patient portal by 3:00 PM Central Time of the appropriate day listed in the following table:

Cycle Report	Information Provided	Availability
Fertilization Report	# of fertilized eggs (# of embryos in culture)	Day 1 of IVF cycle (the day after your egg retrieval)
Cryo Report	# of eggs cryopreserved	Day 0 of IVF cycle (the day of your egg retrieval)
	# of embryos cryopreserved	Day 6 or 7 of IVF cycle (6-7 days post egg retrieval)

NOTE: Any information you provide or receive through the patient portal is private, and accessible ONLY by you and our office staff. You may need to allow pop-ups or change your firewall/security settings in order to access the patient portal. If you experience any issues while attempting to view your IVF cycle reports, or do not have access to a computer with internet, please contact our office at 812-842-4530.
