Meet Our Family Medicine Residents

Maui Mobelini, DO **Class of 2029**

ABOUT ME

Hey, y'all! My name is Maui Hall Mobelini. I was born and raised in eastern Kentucky and am looking forward to this new chapter in a new city/state for residency! I attended undergraduate at Morehead State University and received my medical degree from the University of Pikeville Kentucky College of Osteopathic Medicine. During my residency interview process, I was looking for an unopposed family medicine program with lots of variety within the realm of family medicine. I am especially interested in women's health and obstetrics, hospital medicine, critical care, geriatrics, and adolescent pediatric medicine.

WHY CHOOSE DEACONESS?

Deaconess was a perfect fit for me due to its strong training in all these areas. I am very excited to grow both clinically and personally throughout my time as a resident physician.

HOBBIES/INTERESTS

Outside of medicine, I love to spend time with my husband, Collier, and our two dogs Gucci and Gypsy. I am an only child, so I am incredibly close with both of my parents and value time with my family. I love to travel, cook, read (especially psychological thrillers), decorate my house, go to concerts, and watch North Carolina Basketball.
