RESIDENCY

Meet Our Family Medicine Residents

Keyshla Chacon Nieves, MD **Class of 2029**

ABOUT ME

Hello! My name is Keyshla and I was born in Puerto Rico. I received a Bachelor of Science degree in General Biology from the University of Puerto Rico at Bayamon and attended medical school at Indiana University School of Medicine, where I completed my first two years at the Evansville campus.

WHY CHOOSE DEACONESS?

The Deaconess Family Medicine Residency is the best fit for me because I am familiar with the area from medical school, and it has what I am looking for in a program: a supportive environment where I will be able to learn broadly and prepare to serve the community. Additionally, I will be able to reside close to my fiancé's family and spend time with them.

HOBBIES/INTERESTS

Outside of medicine, I enjoy walking with my dog and my fiancé, spending time with family, and going to Indianapolis Colts games. I look forward to exploring trails and trying new foods in the area.
